Education

Data Science Academy

Data Science Bootcamp — 2023

Azerbaijan State University of Oil and Industry

Bachelor of Engineering, Technological Equipment and Machinery — 2016

Experience

Smart Solutions Group — Baku

Data Analyst | August 2024 – Present

- Analyzed large-scale government tender datasets using SQL and Python to identify procurement trends, anomalies, and bias patterns
 - Validated data accuracy and reliability through close collaboration with software development teams
 - Designed and delivered interactive dashboards in Power BI and Qlik Sense to visualize buyer–supplier relationships
 - Formulated and tested analytical hypotheses to guide data exploration and improve insight relevance
 - Translated complex tender data into clear, decision-ready visualizations for executive stakeholders
 - Optimized data interpretation workflows to improve accessibility for first-time dashboard users
 - Managed the end-to-end dashboard lifecycle, from requirements gathering to final presentation and feedback integration
 - Analyzed large datasets to identify trends, supporting data-driven decision-making processes.
 - Developed and maintained interactive dashboards using Qlik Sense and Power BI for stakeholder reporting.
-

Galaxy LLC — Moscow (Remote)

Data Analyst | July 2023 – August 2024

- Developed **standardized and ad-hoc analytical reports** for management and business units

- Extracted, transformed, and analyzed data using **SQL** across multiple operational domains
 - Built analytical reporting for **executive, sales, marketing, logistics, and warehouse teams**
 - Conducted data **analysis, planning, and forecasting** to support operational and commercial decisions
-

Easy Drill — Baku

Directional Drilling Engineer | *June 2019 – July 2023*

- Planned and reviewed **directional drilling programs** in compliance with engineering standards and well objectives
 - Monitored drilling performance and analyzed operational data to ensure progress and efficiency
 - Resolved operational issues to **minimize downtime and schedule delays**
 - Coordinated equipment requirements and ensured operational readiness
 - Prepared and consolidated **final drilling and daily operational reports**
-

Easy Drill — Baku

Reaming Consultant | *November 2018 – June 2019*

- Executed reaming operations using appropriate tool configurations to stabilize wellbores
 - Monitored drilling parameters to ensure **safe and efficient reaming operations**
 - Replaced cutters and nozzles on-site based on well section requirements
-

Easy Drill — Baku

MWD/LWD Engineer | *February 2018 – November 2018*

- Managed MWD/LWD operations including **tool preparation, data acquisition, and quality control**
- Maintained operational databases documenting job activities and measurements

- Collected real-time downhole data using advanced logging techniques
 - Interpreted MWD/LWD data and communicated results to clients and supervisors
 - Evaluated equipment condition and recommended maintenance actions
 - Prepared daily operational reports and work orders
-

Heydar Aliyev Oil Refinery — Baku

Mechanical Engineering Intern | *January 2013 – April 2015*

- Assisted in monitoring industrial processes and equipment performance
 - Supported technical documentation and basic operational analysis
-

Skills

Technical:

Python, SQL, Oracle SQL, MS SQL, MySQL, PostgreSQL, ClickHouse, Power BI, Qlik Sense, pandas, scikit-learn, Matplotlib, Jupyter Notebook, Tableau

Certifications:

Oracle Database SQL (1Z0-071), Oracle University — 2024

Languages:

Azerbaijani (Native), English (C1 – Advanced), Russian (C2 – Fluent)
